

**skyVac™ REACH**  
Window Cleaning Equipment

The latest innovation in  
Telescopic water fed poles  
Clean quicker, faster and more accurately  
first time every time.

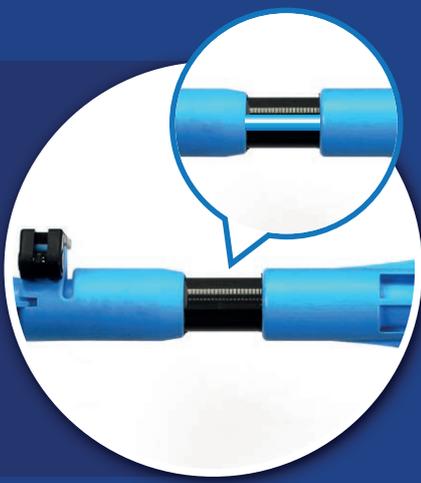

## SKYVAC REACH

---

With unique built in features and a high carbon fibre content, the robust poles supersede most water fed poles on the market.

Cleaning up to 65ft, quickly and accurately first time whilst keeping you safely on the ground.

**spinAclean Ltd**  
home of **skyVac**

## No external tubing

Tubes are fed through the pole, free from being caught on buildings or awkward parafits

## Spring loaded

Allowing you to smoothly extend the pole to a wider aperture, greatly reducing wear and tear on the pole

## Adjustable gooseneck

Can be removed, repositioned and reclamped both vertically and horizontally

## Water cut-off

A water cut off slot is located at the butt of the pole, to save valuable pure water

## Water trolley

Completing the SkyVac Reach package the portable pure water trolley, ensures each job is completed to perfection with a crystal clear finish.

The robust, compact design and ease of manoeuvrability makes the trolley the perfect choice for work in any areas where both mains water and electricity are available.
