EVERYDAY DOMESTIC & COMMERCIAL USE

INDUSTRIAL 85

We've invented, tested, modified, challenged, trashed and pushed the boundaries of what's possible, to get to where we are today. The skyVac® Industrial 85 IS... gutter cleaning.

Featuring 3 industrial-strength 1,100 Watt motors for 3,300 Watt of power, the skyVac® Industrial 85 combines high airflow, at 10,000 litres per minute of airflow, with exceptional water lift. The unique patented "POWERMIX" system reconfigures the power supply from parallel to series to drive unparalleled water lift of up to 150 inches which is +50% higher than standard 3 motor 3,300 Watt machines.

The Vacuum head has been designed to take up minimal drum space, allowing for 60 litres of gutter debris capacity. The filter is protected by a curved steel deflector plate, which lines up with the cyclonic vac entry port, and helps guide debris around the drum.

Easy to empty, thanks to an evenly balanced tipping chassis with locking castors. Simply unclip and remove the motor head, placing safely upright on the ground thanks to the steel foot on the filter protector plate and tip out drum contents.

Now comes as standard with a drain hose and sieve basket, for a more flexible and user-friendly approach to gutter waste disposal. These additions "separate" the gutter contents into liquid and organic matter, as opposed to a collective gutter soup.

IDEAL FOR:

- Gutter cleaning (up to 4 storeys high)
- For gutter cleaning both commercial and domestic premises
- From top up cleans to stubborn gutter blockages
- Tipping chassis for easy debris removal

skyVac® INDUSTRIAL 85

Machine Specification

Motor Wattage:	3300 Watt (3 x 1100 Motors)
Water Lift:	150"
Air Flow Movement:	10,000 LPM
Cyclonic Entry Port:	50mm
Container:	78 Litre
Weight:	36kg
Decibel Level:	72 dB
Mains Connection:	240V @ 13amp / 110V @ 32amp
Dimensions (cm):	60(l) x 64(w) x 114(h)

Included as standard

7.5M Reinforced Hose

ELITE End Tools &
135° Hairpin Neck

Carry Bag

Optional Add Ons...

skyVac® 3600 Watt
Inverter

skyVac® 5KVA Petrol
Generator

Plus...

Clamped 4 pole package

Available in 6 pole &
8 pole package

4 POLES - reach 6m/20ft
6 POLES - reach 9m/30ft
8 POLES - reach 12m/40ft
